PRODUCT COLLECTION

Ceremonial tea, beverages and culinary applications

Selected producer portfolios from Guizhou, China
Distributed by C&K; Commerce Group

YOUR SOURCING PARTNER

About C&K Commerce Group

C&K; Commerce Group is a global trading company connecting international buyers with trusted producers and sourcing partners. We focus on tea, matcha, herbs, botanical ingredients and related food products.

Our matcha portfolio

Our collection brings together matcha from Guitea and Guizhou Ruisai. It covers pure tea preparation, beverage development, baking and food applications, with each producer's series presented separately for clear product selection.

C&K; is your commercial contact.

For samples and quotations, share the producer, product code or series, intended application and required volume.

Series names and grade descriptions follow the respective producers. They do not imply equivalent specifications across suppliers. Application suitability should be assessed with samples.

GITEA / S SERIES

Ceremonial matcha

**S01**

Bright green liquor with a rich aroma, fresh sweetness and a smooth, mellow mouthfeel.

Applications Pure matcha, lattes and premium mixed drinks.

S02

Bright green liquor with pronounced shaded-tea aroma, fresh sweetness and full body.

Applications Tea ceremonies, tastings and rich matcha lattes.

S03

Fresh, sweet character with a rich shaded-tea aroma and a full, mellow flavor.

Applications Pure matcha and premium lattes.

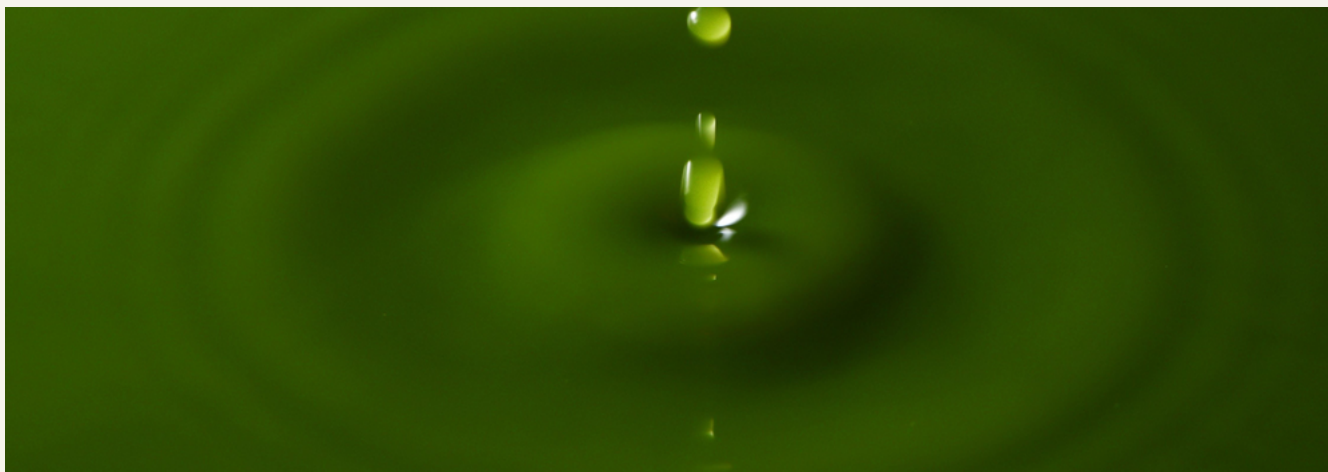

S04

Bright green color, strong aroma and a full tea flavor with a fresh, mellow taste.

Applications Pure matcha and premium mixed drinks.

GITEA / A SERIES

Beverage matcha

**A01**

Tender green color, pronounced tea aroma and a smooth mouthfeel.

Applications A broad range of beverages.

A02

Green matcha powder with shaded-tea aroma, rich tea flavor and a mellow taste.

Applications Pure matcha, lattes and premium mixed drinks.

A03

Bright green color, prominent tea aroma and full body with a smooth, mellow finish.

Applications Dairy-based beverages and other dairy applications.

A04

Green matcha powder with rich tea flavor and a mellow taste.

Applications A broad range of beverages.

GITEA / B SERIES

Culinary matcha

B01

Green matcha powder with light bean-like and sweet aromatic notes, a delicate mouthfeel and full tea body.

Applications Cold-processed pastries and fresh desserts with a short shelf life.

B02

Yellow-green matcha powder with full tea body, positioned for cost-conscious food formulations.

Applications Baked snacks and other longer-shelf-life matcha products.

Select the grade through recipe trials, taking processing temperature, dosage and finished-product storage into account.

GITEA / BK SERIES

Specialty matcha formulations

Listed as “Flavored Matcha” in the producer portfolio.

BK01

A color-retention formulation with bright green appearance, low astringency and a sweet aroma.

Applications Heat-processed cookies, croissants, cakes and commercial bakery products.

BK02

Tender green color, a light fragrance and tea notes with a rich, sweet, refreshing taste.

Applications Beverage mixing.

BK03

Designed for baking, with tea aroma, tea body and prolonged green color retention.

Applications Longer-shelf-life matcha baked snacks.

Formulation details

Ask for the ingredient statement and product specification for the selected BK code. Confirm performance in your recipe and process before ordering.

GUIZHOU RUISAI / PRODUCT SERIES

Song, Ming & Qing

A complementary range for tea service, beverages and culinary use.

SONG

Vivid green color with layered toasted and seaweed-like notes. Fresh and mellow, with gentle bitterness and a sweet finish.

Applications Tea ceremonies, tastings and premium dining.

MING / QING

Tender, bright green color with shaded-tea, milling and seaweed-like aromas. Fresh, full taste with a sweet finish.

Applications Tea service, hospitality and beverage applications.

BAKING & SEASONING

Natural green-yellow color, pronounced tea aroma and a mellow taste with a sweet aftertaste.

Applications Baking, ice cream and food formulations.

The producer presents Ming and Qing together in one series. Individual product specifications are available by inquiry.

For Song, the producer lists a 50 kg minimum batch and customization options. Confirm current order terms with C&K.;

PRODUCER PROFILE / GITEA

Tea gardens in Guizhou

Guitea's portfolio is rooted in the highland tea-growing environment of Guizhou. Mountain terrain, mist and shaded cultivation support the color and flavor characteristics of its matcha.

Cultivation & consistency

The producer describes standardized tea-garden management, traceability of farming activities, manual weeding and biological pest control. Its digital blending center combines teas across seasons, varieties and regions to address different flavor requirements.

The source materials reference organic certifications for selected tea gardens. Certification scope should be confirmed for the specific product and destination market.

Producer information: supplied Guitea / C&K; portfolio. Garden credentials are distinct from product-specific certification.

PRODUCER PROFILE / GUITEA

Production & cold storage

Controlled production

Guitea describes a Class 100,000 clean production workshop, continuous low-temperature ball milling with water cooling, and a rapid steam treatment process. These systems form part of the producer's approach to processing and quality control.

Temperature-controlled storage

Its intelligent vertical cold storage is reported to have a volume of 100,000 cubic meters and capacity for more than 5,000 tonnes of tencha. The facility uses inventory management systems and year-round monitoring.

Product documentation

For a selected grade, request the applicable specification, current certificates and batch test documentation through C&K.;

Facility descriptions and capacity figures are reported in the supplied producer portfolio.

PRODUCER PROFILE / GUIZHOU RUISAI

An integrated tea producer

Established in 2021 in Meitan, Guizhou, Guizhou Ruisai Agricultural & Animal Husbandry Technology Co., Ltd. integrates tea cultivation, production, processing and sales.

6

Tencha and matcha
processing factories

3,000 tonnes

Reported annual
matcha production capacity

The producer reports a 36,000-mu tea-growing base (approximately 2,400 hectares), along with research cooperation involving agricultural universities and tea research institutions.

Its quality program describes controls from fresh-leaf selection to packaging, including pesticide-residue and heavy-metal testing.

English company name is a translation. Figures and facility information are from the supplied Ruisai presentation.
